

MOTHER'S DAY

Goddess of Liberty

Within a few years We wish to bring forth through you certain Manifestations that will so encourage the rest of mankind that you will be just like a magnet that lifts them toward the Light. You will awaken in them the Desire to give Obedience to the Cosmic Law as they see what you can release through your operation of It. So I have many plans ahead. And you know, since “I AM” your Cosmic Mother, I have to watch your education—and it’s planned ahead for some time. Let Us, after graduation takes place, move into magnificent, wonderful accomplishment and give the Blessings to Life that bring Joy everywhere; and the Mastery that sets Life free becomes just your natural everyday existence.

I want you in five years to show mankind magnificent Powers of Accomplishment and Eternal Truth that is absolutely self-evident; and the Blessing and the Joy will be so great to those to whom you give It that you will go forward like a Sun Presence. I want the Light to begin to shine now so that as It intensifies, the incoming Perfection floods forth and your problems are gone. Your struggle is gone because the Cosmic Sacred Fire Mastery of conditions contains no struggle. I want you to enter into that as quickly and as powerfully as possible from day to day. If you will try to remember this, I will certainly remind you of It in many ways that may come to you in the midst of outer world activities. If you just charge It forward, I can take you forward to very, very great Happiness, and close the door to the struggle that you think you have had, you have felt that you had, and many times did not belong to you.
